EXPERIENCE

Flutter Developer Intern

Supreme IT Solutions | Kathmandu, Nepal | Remote

December 2025 – April 2026

- Built cross-platform Flutter features using Clean Architecture and BLoC/Cubit for 3+ client applications.
- Collaborated with cross-functional teams and QA engineers to design, develop, and implement new features, ensuring high-quality releases.
- Implemented JWT authentication and REST API integration with Dio, strengthening app security and data reliability.

PROJECT

E-Learning Platform

Flutter, Node.js, MongoDB, Riverpod, Stripe, Firebase FCM

August 2025

- Built a full-stack e-learning platform with course filtering, progress tracking, and automated PDF certificate generation.
- Built RESTful APIs using Node.js, Express.js, and MongoDB; integrated Stripe for secure payments.
- Implemented Riverpod state management, Firebase Cloud Messaging, and optimistic pagination for smooth performance.

Job Portal Application

Flutter, Node.js, MongoDB, Provider, Push Notifications

January 2025 – March 2025

- Built a full-stack job portal with category/location filtering and real-time push notifications.
- Architected a Node.js/MongoDB backend with optimized indexing, reducing search response times.
- Implemented Provider state management for a responsive cross-platform UI with real-time status updates.

Food Delivery Application

Flutter, Node.js, Express.js, MongoDB, Firebase

August 2024 – December 2024

- Built a full-stack food delivery platform with browsing, cart, secure checkout, and JWT authentication.
- Built modular REST APIs for order processing, a dynamic promo engine, and ratings.
- Implemented real-time order tracking and push notifications using Firebase Cloud Messaging.
